WORK HISTORY

Physical Therapy Aide Supervisor   April 2017 - June 2021
Cameron Park Physical Therapy
- Directed specialized training sessions to accelerate recovery for 20-40 patients daily.
- Collaborated with five Physical Therapists to ensure effective patient treatment.
- Prepared and maintained thousands of patient accounts, implementing best practices to ensure data integrity.
- Supervised a team of up to five aides simultaneously, overseeing and ensuring the delivery of high-quality treatment.
- Managed social media and website content while actively contributing to advertising and marketing efforts.

Construction Associate   June 2014 - August 2016 (Summers only)
Streng Construction Inc.
- Worked on various construction tasks including fence repair, painting, deck restoration, and landscaping.
- Coordinated with up to four team members to complete projects efficiently.
- Communicated effectively with supervisor and coworkers to complete tasks to specifications.

PERSONAL PROJECTS

Cart2Go Website   April 2024 - May 2024
- Crafted a personalized and organized shopping list with ASP.NET Core, Vue.Js, and Microsoft SQL, tailored to individual users, simplifying the shopping experience.

Social Media Website   January 2024 - February 2024
- Designed, programmed, and deployed an innovative social media platform, using Next.js, Node.js, Express.js, and MongoDB; hosted on Vercel and Firebase.
- Led the development of innovative features including notifications, user authentication, account recovery, content posting, and a rating system.

Automated Crypto Trading Bot   October 2023 - December 2023
- Developed a cutting-edge automated cryptocurrency trading bot in Python, integrating price check mechanisms and moving average crossovers to drive data-based trading decisions.

Landing Page Website   August 2023 - December 2023
- Crafted a personalized landing page using Next.js and Tailwind CSS; hosted on Vercel.
- Utilized visuals to captivate and engage users, enhancing the overall user experience.

Boba Shop Website   January 2023 - December 2023
- Collaborated with a team to design, implement, and test a website tailored to a client's Boba Restaurant.
- Enabled staff to customize images and menu components easily.
- Achieved a six percent lower fee, streamlined the ordering process, and implemented a customer rewards program.
